SEVENTH YEAR.

MAYSVILLE, KY., FRIDAY, MAY 13, 1898.

ONE CENT.

LARGEST IN THE CITY

Doctors!~

asaWe Hre Sick!

We are overloaded. We re-alise that one can easily have too much of a good thing. In fact, we have too much of many good things. We must find re-lief. Our shelves and counters fairly groan with the loads of Fine Suits, Spring Overcoats and everything that can be mentioned in the way of

Clothing For Men. Boys @ Children.

We are surfeited with the finest of Shirts, in dress, negligee and for every purpose Shirts are adapted for.

In Neckwear we fairly swim, not only in quantity, but also in style and quality.

SHOES.

Men's Fine Shoes are our hobby, and not precisely knowing our capacity we are also overloaded on them.

Whilst our appeal is directed to the doctors, there are thousands who are not members of sands who are not members of some or the sands who are not members of some or the sands who are not members of sands who are not membe

sands who are not members of the medical profession, but fully as able to give us relief, that we hope will not overlook our ailment, but will come in and profit by it.

MAYSVILLE WEATHER.

WONDER if the monopolist of th pop" service will have enough loop holes to crawl through when the 'fakes" are exposed.

THE Carlisle Mercury states, by at thority of the gentleman himself, that the Hon. HANSON KENNEDY will not be a candidate for Congress this fall.

Or all the telegrams we have re-ceived none have been misleading up to date with the exception of the one we printed Monday reporting that a naval shattle hat taken piace on the Atlantic, resulting in the DEFAIT OF THE AMERI-CANS. We are happy to state that there was no truth in it whatever, though IN A CERTAIN QUARTER there seems to be onliked DISAFPOLYMENT that with the Result States.—Eve-

THE LEDGER begs its contemporary to explain its meaning. If there is any "certain quarter" in Maysville, or anywhere else in this country, where there would be "great disappointment" because the United States fleet was not defeated, it ought to be known-and the sooner the better. Please locate the "certain quarter" where these traitors can be found.

An American just returned from Paris says:

Paris says:

"In Paris the feeling is most bitterly anti-American. Every person who is thought to be an American is elbowed off the sidewalks, jostled by the crowds and everyting possible done to show the astipathy of the French. Petty annoyances are practiced. For instance, the streetcars will not stop to take on American passengers, rates of exchange in money in most cases are exorbitant and small purchases are not encouraged by many of the shop-keepers except at figures three or four times the actual value."

To which The Courier-Journal says it may be that good Americans will no only cease going to Paris when they die, but that they will cease going there while they live. For Americans to keep themselves and their pocketbooks out of Paris would inflict greater loss upon that city than we shall inflict upon Spain by the war.

THE LEDGER'S valued contemporary El Heraldo, fresh from the press Madrid, paints this doleful picture:

Madrid, paints this doleral picture:

"Our warships have been destroyed,
our brethren in Manila are besieged,
Cuba is blockaded and our troops there
abandesed to Forvidence, Forvic Silcocaive the onemy's fire. Our squadron
is sailing in search of a supreme engagement, and here there is no Government. All Spain is convaled with a
terrible social crisis and is faminestricken. It is wavering between a
state of siege and absolute anarchy,
and where a brilliant light should appear there is utter darkness, indecision,
ifight. There is no Government, no
Ministry. There is nothing."
And yet you've been telling 'all the

-Itself is not believed from one who often has deceived!-

Is an old saying trite and true. "Honesty is the best policy," and is bound to win against any combination. "Truth is mighty and will prevail" is a proverb old and true. These proverbs are brought most forcibly to our mind when we realize how rapidly our acquaintance with the good people of Mason county has ripened into friendship, a friendship which we believe will be lasting, for we shall continue to do business upon our matchless plan—"Buy 'em right, add 10 per cent. and sell'em quick."

sell 'em quick."

Remember, we have never deceived you.

We have never offered you a 75c. chair for 40c. and then sold you a \$10 bedroom suite for \$19. Remember that we have no baits, no leaders, no catches!

Remember that we have no baits, no leaders, no catches!

Sood people of Mason county realize by experience that we mean every word that our signature appears to. Beware of the deceived you by means of baits, catches and leaders into paying twice the real value for you midst twenty-we years, supposing that direct where the supposition, you understand, for we have no intention of departing from our present method of business. We venture the prediction that in 1920, Providence permitting, we will stand very lease to the hearts of the people of Mason county. But time John I. White we went this: "would you believe the value of your goods—supposing that after twenty-woyears of deceive we were to deceived? This is merely a supposition, you understand, for we have no intention of departing from our present method of business. We venture the prediction that in 1920, Providence permitting, we will stand very close to the hearts of the people of Mason county. But time John I. Whiter will have clearly demonstrated the fact that his word is his bond. Another peculiarity of The Price Fighter is that he never asks what the other fellow's price is—he don't care.

The Price Fighter Makes His Own Prices

No, sir; The Price Fighter never makes but one bite at it. He gives you his best price at first, and that price is invariably a record breaker. Surely it should inspire confidence to realize that the price asked you is the taking price—to realize that the price first asked you is the lowest price in the world for the same article. The question with us is, "How cheap can we sell this article?" With others the question is, "How much can we get for this?" What is the greatest price that the customer will pay for this chair? It is your future business that we figure for.

Remember,

-WE MAKE THE PRICE ON-

Furniture and >>>>Farm Implements!

Our Farm Wagons are the talk of the surrounding country. They are peculiar. They have springs just like a C. and 0. freight car. These springs are guaranteed; they prolong the life of a wagon of we years; they increase the carrying capacity of a wagon 30 per cent; they equalize all sudden jars and jolts, remove all strains from your wagon; they are found only on the Florence Wagon that is sold and warranted by John I. Winter. Get all you can for your mosey. Say, I can save you \$10 on a farm wagon; try mel!! I have a peculiar Disc Harrow. It's different from any other disc harrow. Ought to see it. Costs nothing to look at it. Farmers all say that it's the finest thing in the land. I can save you from \$7\$ to \$10 on a disc harrow. I would like for you to see our Corn Flanter, you from \$7\$ to \$10 on a disc harrow. I would like for you to see our Corn Flanter, so the one and two-horse. See our Riding and Walking Flows and Cultivators, and Binder Twine. It will pay you well to see us.

Wheat \$1.50 a Bushel!

That's the sign you will see about harvest time. What are you going to cut it with? You surely can't afford to go into harvest with that old machine.

BINDER! And Be Happy

ember, Deering always sets the pattern. Deering made the first twine eering first used ball and roller bearings. Deering today makes the oved binder. Get the best, and every one knows that is a Deering.

WONDERFUL STRUCTURE.

"Escorial," Spain's Greatest Building, Cost More Than \$12,000,000.

Spain possesses one of the largest buildings in the world. It is at once a palace, a museum, a library, a picture gallery, a monastery, a church and a burial place, says The Louisville Post.

This wonderful edifice is called the Es orial, although the name is very generally orrupted both in England and America ato "Escurial."

The Escorial was commenced in 156 by order of Philip II. of Spain, and was by order of Philip II. of Spain, and was intended partly as a royal burring place for the Kings of Spain and partly as a commemoration of Philip's victory over the French at St. Quentin in 1557. It was built entirely of granite, and measures 744 feet in length by 589 feet in breadth. At each corner is a tower 300 feet in height. The building is supposed to represent an enormous griffion lying

to represent an enormous gridiron lying upside down, and this shape is believed

upside down, and this shape is believed to have reference to St. Lawrence, who was married on a gridiron.

Twenty-one years were spent in build; ing it, and it cost over \$12,000,000. It has been twice partly destroyed by lighting, and was sacked by the French soldiers in 1800. There are 14,000 doors and thrice that many windows.

three that many windows.

when, being under heavy fire, he towed
when, being under heavy fire, he towed
when, being under heavy fire, he towed
to render her again efficient. Full report mailed,"

KEY WEST, Fla, May 13.—It is now

known that the American boats made serious havoc with Cardenas harbon and town. The captain of the Hudson said:

said:

"I know we destroyed a large part
of their town near the wharws, burned one of their gunboats and I think
destroyed two other torpedo destroyers. We were in a vortex of shot,
shell and smoke, and could not tell accurately, but we saw one of their boats
on fire and sinking soon after the action began. Then a large
the stopped of the short of the short
burness, took fire and many other
buildings were soon burning. The

Ensign Biggley was instantly killed, and four of his men fell with him. The Wilmington had reached an easy range about this time and opened with her heavy zuns. The Spanish held down on her and she was hit by a doz. She was hurt, but rea.

of other apparatus were detailed for duty in the vicinity of the gar erserval that the series of the fire department, officials believed they had the finances under control. The series of the fire department, officials believed they had the finances under control. The series of the
